

Iron Birdbath with Vining Twig Stand

Instructions:

Remove 3 wing nuts from bottom of basin.

Open swivel legs and attach basin using wing nuts.

Note: All outdoor garden products will weather over time.

To prolong the life of your birdbath, we recommend an occasional application of a non toxic finish to the basin after cleaning and allowing to dry thoroughly.

We hope the birdies in your garden enjoy their new bath! *The staff @ aGardenPlace.com*
