Part C

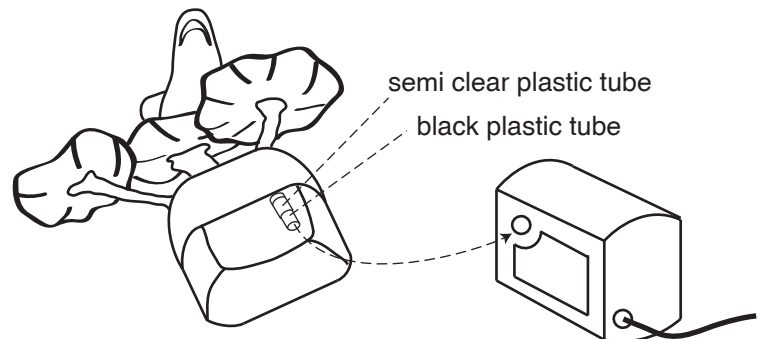

Part D

1. Insert cable through the pipe

2. Insert the black plastic tube into the pump to connect the pump with the water-fall frog cover

3. Adjust water volume switch as well as the pump position. Place the cover over the pipe and connect the cable with the power cord. (Frogs should face to the directions below.)

4. Pour water into the bowl to cover the water pump, but limit the water level to about a 1/2" lower than the bowl top.
